**VOLK FIELD ENVIRONMENTAL STATEMENT**

1. Volk Field ANGB is committed to continued excellence, leadership, and stewardship in protecting the environment. Environmental protection is a primary management responsibility as well as the responsibility of every worker and supplier. Our vision is to reduce waste through pollution prevention, continually improve our environmental performance by minimizing our impacts on the manmade and natural environment, and maintain compliance with all federal, state and local environmental regulations at all times. Our basic tenets include:

- Environmental protection is a line responsibility and an important measure of worker performance. Every worker is responsible for environmental protection in the same manner as personnel and worker safety.
- A commitment to compliance with all federal, state, local and other environmental regulations is paramount in all we do.
- We are committed to reducing or eliminating the generation of waste. This will be a prime consideration in all future decision-making.

2. In addition to these tenets, we have created a framework for continual improvement through setting and reviewing environmental objective and targets annually during Environmental, Safety and Occupational Health Council meetings. Using this we will enable Volk Field to uphold one of the Air Force's core values of excellence in all we do.

3. If you have any questions, please contact my environmental manager at [Michael.Dunlap@us.af.mil](mailto:Michael.Dunlap@us.af.mil) or 608-427-1441.
