20 October 2016

MEMORANDUM FOR RECORD

FROM: VOLK FIELD ANGB/CC
100 Independence Drive
Camp Douglas WI 54618-5001

SUBJECT: Volk Field Environmental Statement

1. Volk Field ANGB is committed to continued excellence, leadership, and stewardship in protecting the environment in accordance with Air Force Policy Directive 90-8. Environmental protection is a primary management responsibility as well as the responsibility of every worker and supplier. Our vision is to reduce waste through pollution prevention, continually improve our environmental performance by minimizing our impacts on the manmade and natural environment, and maintain compliance with all federal, state, and local environmental regulations at all times. Our basic tenets include:

a. All Volk Field employees are responsible for environmental protection and it is an important measure of worker performance in the same manner as personnel and worker safety.

b. A commitment to compliance with all federal, state, local and other environmental regulations is paramount in all we do.

c. We are committed to reducing or eliminating the generation of waste. This will be a prime consideration in all future decision-making.

2. In addition to these tenets, we have created a framework for continual improvement through setting and reviewing environmental objectives and targets annually during Environmental, Safety and Occupational Health Council meetings. Using this process, Volk Field will uphold one of the Air Force's core values of excellence in all we do in protecting the environment.

3. If you have any questions, please contact my environmental manager Dan Gonnering at daniel.d.gonnering.nfg@mail.mil or 608-427-1441.

DAVID W. MAY, Col, WI ANG
